

# **RAPID**

## Release Notes

DOC 8.2.11 / PM 4.8.3  
Feb 21<sup>th</sup> 2018

# Release Summary

## **PRACTICE MANAGEMENT v4.8.3**

- CPT Procedure Codes
  - Ability to create new using clone (new) Page 3
  - Ability to search & add from master list (new) Page 4
- Scheduler
  - Treatment plan reoccurring Block alert (updated) Page 5
- Case Info
  - Track and display case info changes (new) Page 6
- Charge Entry
  - Place of service missing error message (new) Page 6
  - Dx and pointers not required (MISC Charge) (new) Page 7
  - Linking to inventory (MISC Charges) (new) Page 7
  - Inventory status popup (MISC Charges) (new) Page 7
- Authorization
  - Associating charges to authorization logic (improved) Page 8
  - Remaining visits (count) displayed (improved) Page 8
- Discount Plan Logic (improved) Page 9
- ClearGage integration: TLS 1.2 Support (improved) Page 9
- Refund report updated (updated) Page 9

## **DOCUMENTATION v8.2.11**

- CPT code search & add (new) Page 10
- MACRA/MIPS labels (updated) Page 11

# PRACTICE MANAGEMENT

## CPT Procedure Codes

### Create alternate CPT/Procedure codes by cloning

Clone an existing CPT/Procedure code to create an alternate CPT code with minimal data entry.

The image displays two screenshots of the CPT/Procedure Codes interface. The left screenshot shows the 'Clone' button (2) and the 'Accepted By Insurance' options (1). The right screenshot shows the 'Never Bill To Insurance' option (3), the 'Regular Fee' field (4), and the 'Default Modifiers' section (3). A red arrow points from the 'Clone' button in the first screenshot to the 'Never Bill To Insurance' option in the second screenshot.

1. CPT/Procedure codes; locate and select the existing CPT/Procedure code
2. Click Clone

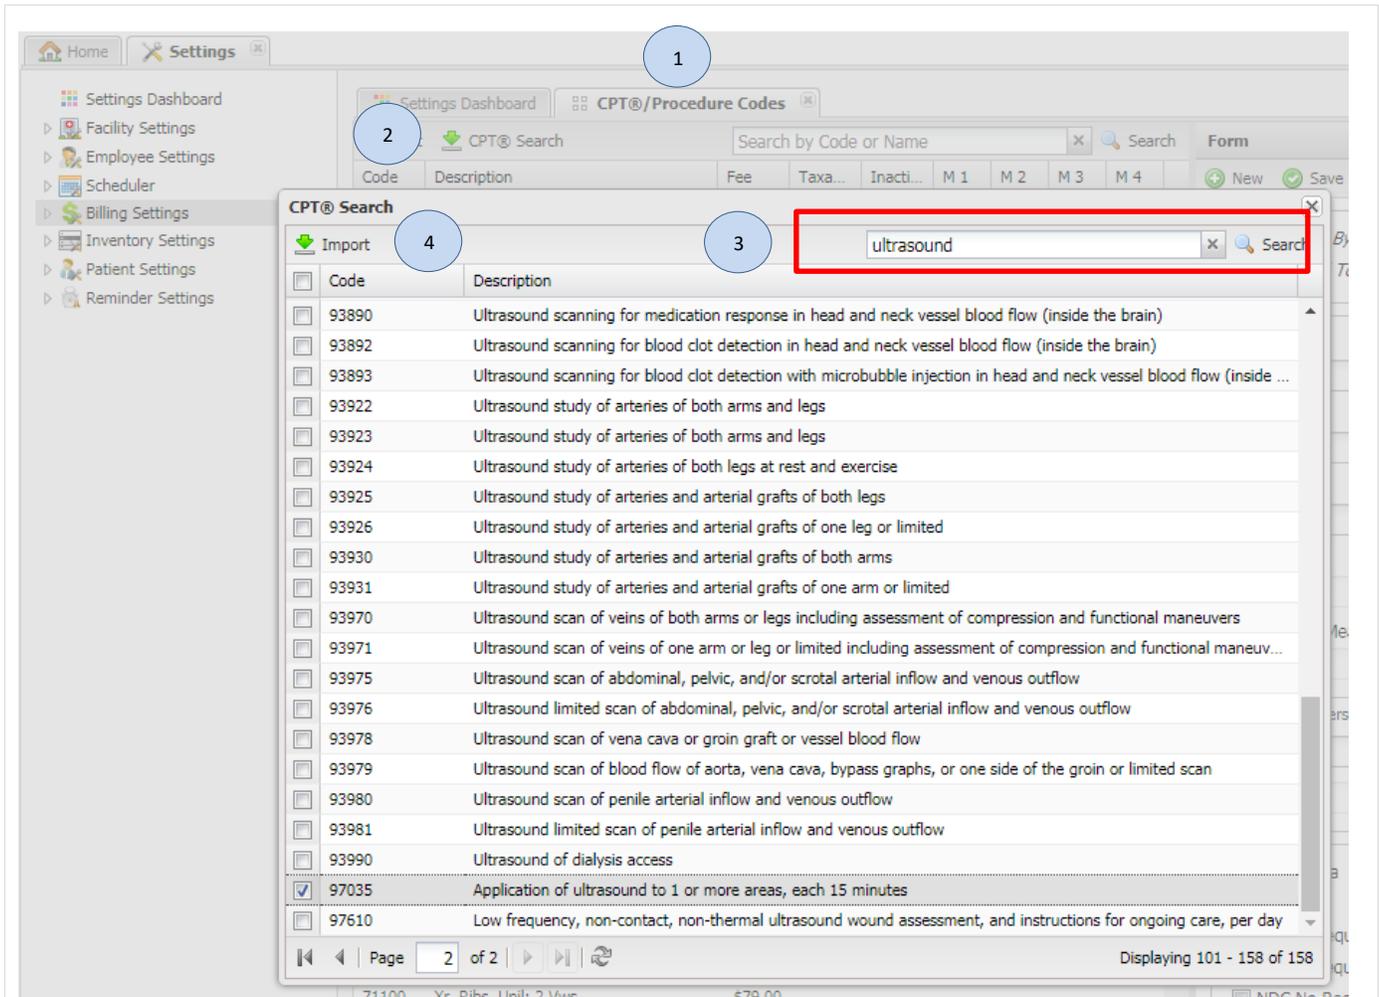

In the subsequent CPT/Procedure screen

3. Update the Billing information as needed
4. Enter in an Alternate Code for this CPT/Procedure
5. Click SAVE

- Access the Treatment section in Settings within RAPID DOC to add intelligent fields and macros to expand on the code description when additional detail is needed for documentation purposes.

## Ability to Search and Add

Add CPT codes into RAPID by accessing the AMA CPT library.

1. From Billing Settings in Settings menu select CPT/Procedure codes
2. Click CPT Search
3. Enter the code or Description of the CPT that you're looking for, then click Search
4. Highlight the Code that you wish to add
5. Click IMPORT to add the code into your default CPT/Procedure List

- Enter in the corresponding Billing information (i.e.; Fee or Modifiers) for the Code
- Access the Treatment section in Settings within RAPID DOC to add intelligent fields and macros to expand on the code description when additional detail is needed for documentation purposes.

## Scheduler

### Treatment Plan Recurring Block-Overlap Alert

Enhanced functionality that informs the User when an existing calendar block conflict with a Patient's Treatment Plan.

The screenshot displays the Scheduler interface for a patient named Patti Daniels. The main window shows a table of appointments with columns for Date, Time, and Status. A conflict resolution dialog box is open, titled "Resolve Appointment Scheduling Conflict:". The dialog offers two options: "Option 1: Disregard this Conflict and Schedule the Appointment" and "Option 2: Find another time slot for this Appointment". A red box highlights the dialog and the conflicting appointment in the table. A blue circle with the number "1" points to the "New" button in the Scheduler toolbar, and another blue circle with the number "2" points to the "Option 2" button in the dialog.

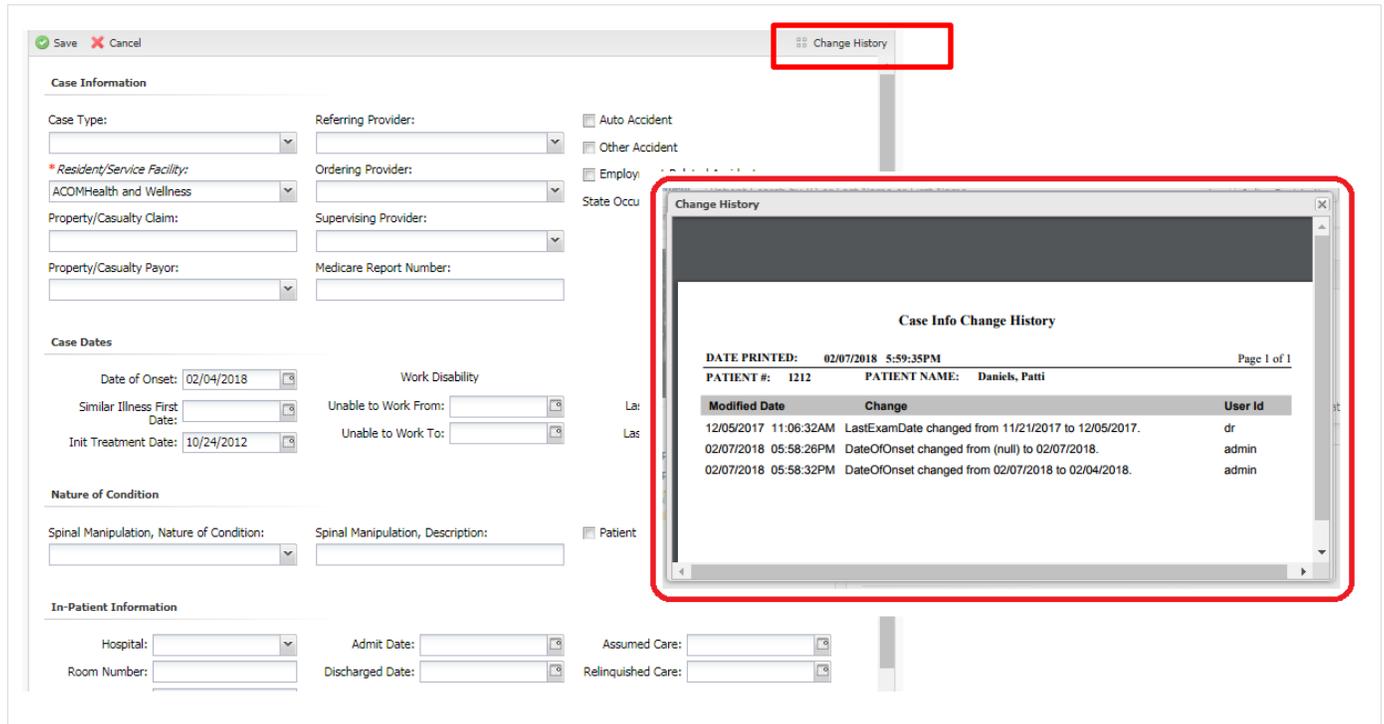

Date	Time	Status
02/07/2018	11:45 AM - 12:15 PM	BLOCK - Lunch
02/08/2018	11:45 AM - 12:15 PM	BLOCK - Out of Office
02/09/2018	11:45 AM - 12:15 PM	BLOCK - Lunch
02/10/2018	11:45 AM - 12:15 PM	Successful
02/11/2018	11:45 AM - 12:15 PM	Successful
02/12/2018	11:45 AM - 12:15 PM	BLOCK - Lunch
02/13/2018	11:45 AM - 12:15 PM	Successful
02/14/2018	11:45 AM - 12:15 PM	BLOCK - Lunch
02/15/2018	11:45 AM - 12:15 PM	BLOCK - Out of Office
02/16/2018	11:45 AM - 12:15 PM	BLOCK - Lunch

User can either:

1. Schedule the Appointments that don't have a conflict or block by clicking SAVE
- OR
2. Locate another appointment time by clicking on the block or conflict

### Pt Case Info: Track and Display Case Info Changes

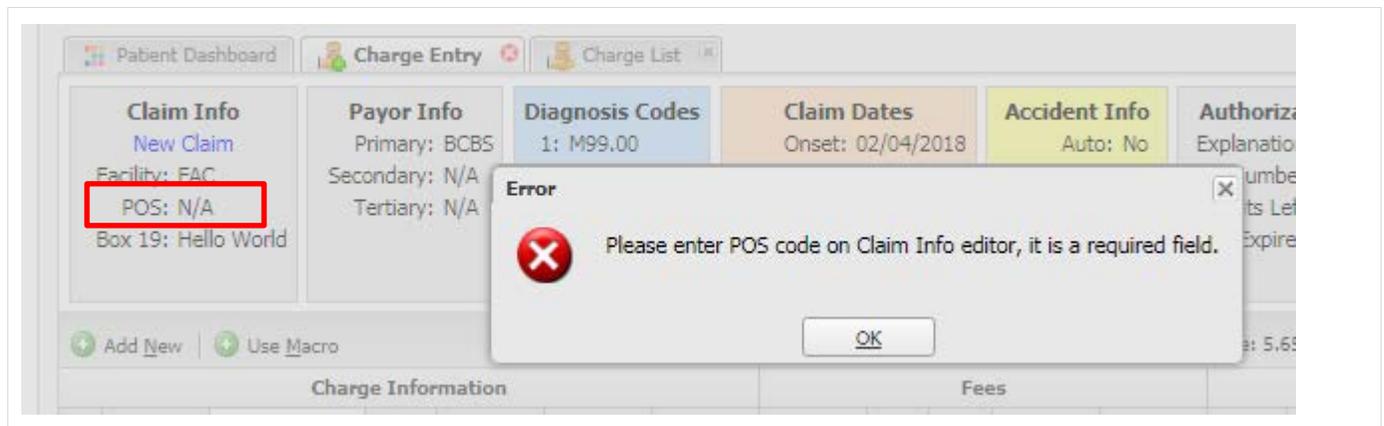

Audit logging and reporting gives visibility to CASE INFO changes and which User made them.

### Charge Entry

#### Place of Service: Error Message

Error message is displayed during Charge Entry when Place of Service (POS) is blank.

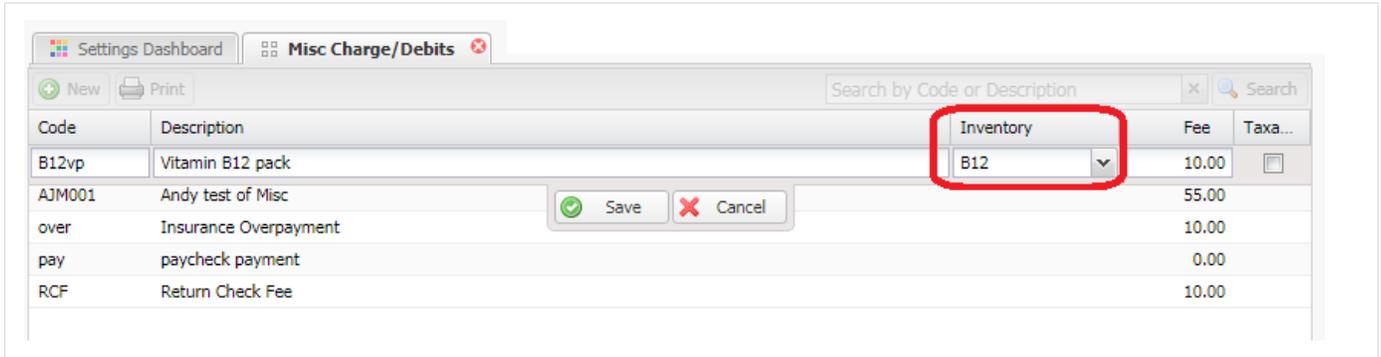

### Miscellaneous Charge Entry: Dx and Dx Pointers

Entering Diagnosis Codes or assigning Diagnosis Pointer is no longer required to enter and post a Miscellaneous Charge.

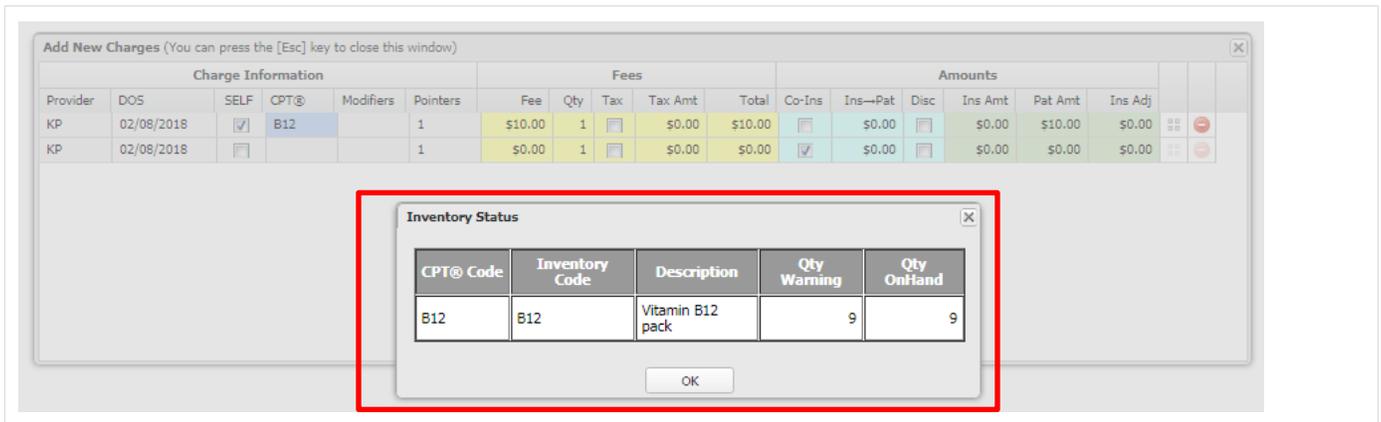

### Miscellaneous Charge: Ability to link to Inventory

Users are able to link a Miscellaneous Charge code to an Inventory code.

### Miscellaneous Charge: Inventory Status

Update to address Description, QTY Warning and QTY On-Hand values not displaying within the Inventory Status pop-up during Charge Entry.

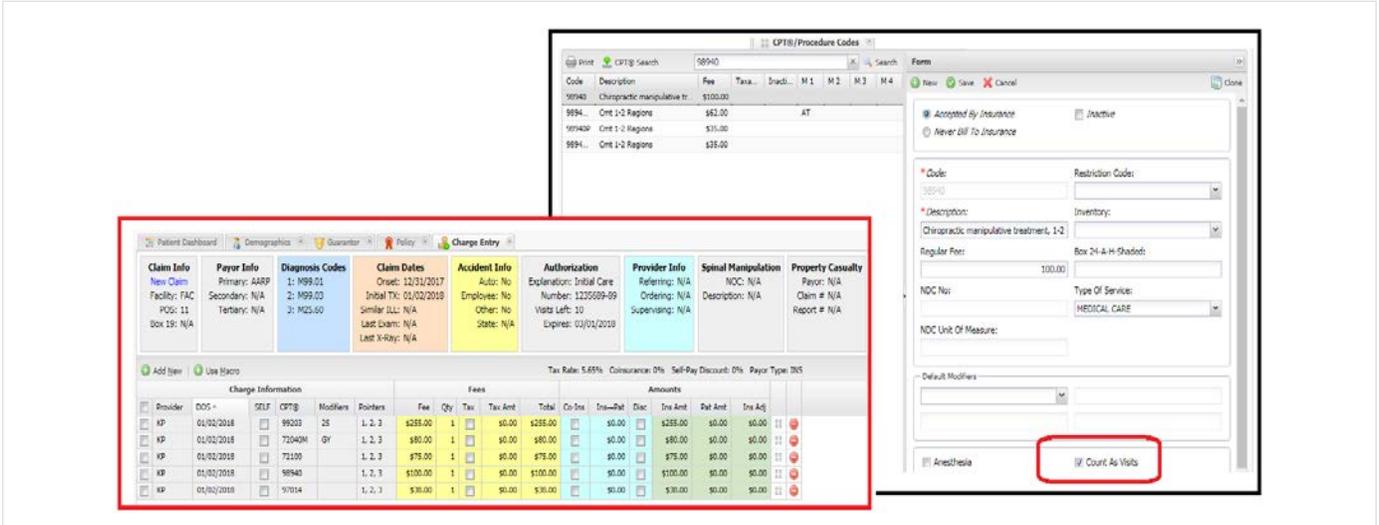

## Authorization Logic

### Associating Charges to Authorization

Charges are associated with an Authorization if:

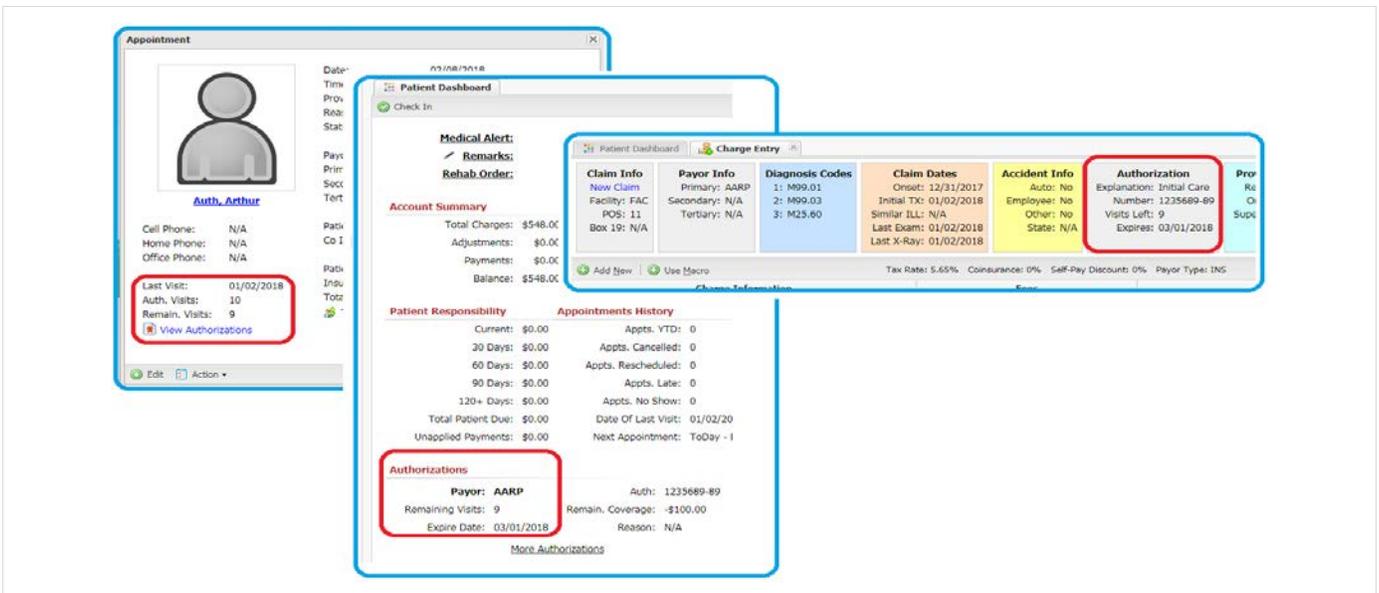

1. Count as Visit is selected within CPT/Procedure code setting and
2. CPT/Procedure's Date of Service (DOS) falls within Authorization Start/End Date

### Authorized Visit Count-Remainder

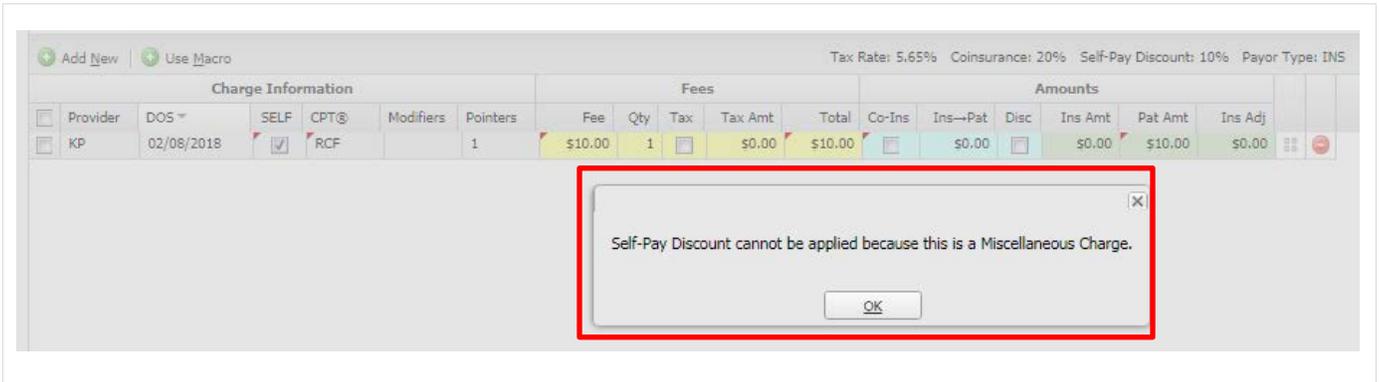

When a Charge(s) are associated with an Authorization Remaining Visits counter within the Authorization is updated and reduced based on the number of unique Dates of Service (DOS) that were associated with the Authorization.

Remaining Visit count is displayed within Appointment Detail; Patient Dashboard and Charge Entry screen.

### Discount Plan; Logic Change

A Discount Plan reduction cannot be applied to a Miscellaneous Charge.

### ClearGage Integration (security)

Backend security update to support TLS 1.2.

### Refund Report

Code update to address Refund Report error.

# DOCUMENTATION

## CPT Search and Add for RAPID DOC Only Users

(RAPID COMPLETE Users add CPT codes through PM per page 3 above)

Add and configurator Treatments within RAPID by accessing the AMA CPT library.

The screenshot shows the 'CPT Search' window with the following details:

- Search Criteria:** 'description' selected, 'ultrasound' entered.
- Search Results Table:**

Code	Description	Added
93892	Ultrasound scanning for blood clot detection in head and neck vessel blood flow (inside the brain)	
93893	Ultrasound scanning for blood clot detection with microbubble injection in head and neck vessel blood flow (inside the brain)	
93922	Ultrasound study of arteries of both arms and legs	
93923	Ultrasound study of arteries of both arms and legs	
93924	Ultrasound study of arteries of both legs at rest and exercise	
93925	Ultrasound study of arteries and arterial grafts of both legs	
93926	Ultrasound study of arteries and arterial grafts of one leg or limited	
93930	Ultrasound study of arteries and arterial grafts of both arms	
93931	Ultrasound study of arteries and arterial grafts of one arm or limited	
93970	Ultrasound scan of veins of both arms or legs including assessment of compression and functional maneuvers	
93971	Ultrasound scan of veins of one arm or leg or limited including assessment of compression and functional maneuvers	
93975	Ultrasound scan of abdominal, pelvic, and/or scrotal arterial inflow and venous outflow	
93976	Ultrasound limited scan of abdominal, pelvic, and/or scrotal arterial inflow and venous outflow	
93978	Ultrasound scan of vena cava or groin graft or vessel blood flow	
93979	Ultrasound scan of blood flow of aorta, vena cava, bypass graphs, or one side of the groin or limited scan	
93980	Ultrasound scan of penile arterial inflow and venous outflow	
93981	Ultrasound limited scan of penile arterial inflow and venous outflow	
93990	Ultrasound of dialysis access	
97035	Application of ultrasound to 1 or more areas, each 15 minutes	Added
97610	Low frequency, non-contact, non-thermal ultrasound wound assessment, and instructions for ongoing care, per day	
- Navigation:** 'Treatments' is selected in the left sidebar.
- Buttons:** 'ADD' button is highlighted next to code 97035.

1. From Settings click Treatments
  2. Click CPT Search
  3. Enter the code or description of the CPT that you're looking for, then click Search
  4. Locate and highlight the add
  5. Click ADD to add it to your default Treatment library
- Add intelligent fields and macros to expand on the code description when additional detail is needed for documentation purposes.

### MACRA/MIPS-Label Changes

Label changes within eCQM section of Tools to correspond to MACRA/MIPS terminology.
